

Viraj Jiwane

[LinkedIn](#) • [Portfolio](#) • +91 7972920267 • vjiwane27@gmail.com

Sr. Software Engineer with 5+ years building scalable systems, APIs, and data pipelines across finance, analytics, and SaaS. Delivered 14+ production applications with measurable outcomes (85% faster pipelines, 98% faster loan disbursement). Skilled in Python/Django, Angular, Node.js, Docker, PostgreSQL, AWS, Azure, and system design. Patent holder (SILI Tool) with strong experience in architecture, performance tuning, and end-to-end delivery.

Experience

JUNE 2023 – PRESENT

Sr. Software Developer For EDA Inc. | Euracle Corp. | Remote

- Built a scalable culture analytics pipeline using Python, Pandas, Airflow, and Sentence Transformers, used by 6 organizations.
- Improved pipeline throughput by 85% via multiprocessing, optimized queries, and distributed processing.
- Developed GDPR-compliant surveys, dashboards, and reporting portals for 5,000+ employees using PHP, JS, and Laravel components.
- Designed microservices-oriented architecture and deployed solutions using Azure VMs, Functions, Blob Storage, and containers.
- Delivered reliable cross-system integrations in a small team (BA, QA, Dev).

JULY 2021 – APRIL 2023

Software Developer | LenDenClub | Remote

- Led development of microservices-based Lending, Funding & Disbursement systems using Django REST and Angular.
- Reduced loan disbursement time by 98% through workflow automation and backend scaling.
- Mentored a team of 6 engineers (juniors + interns).
- Built automation tools and debugging utilities that reduced customer support tickets by 57%.
- Collaborated with business and QA teams to ship reliable fintech features.

SEPTEMBER 2020 – JULY 2021

Associate Software Engineer | Amdocs | Remote

- Built and maintained 23+ microservices for network orchestration (Spring Boot, Kubernetes, HELM).
- Modernized legacy applications, improving reliability and maintainability.
- Introduced Selenium tests reducing manual QA cycles.

SEPTEMBER 2019 – JULY 2020

Full-Stack Developer (Part-Time) | Euracle Corp. | Remote

- Delivered full-stack solutions using Django, Spring Boot, Angular, Flutter, Ionic, and PostgreSQL.
- Improved investor-app retention by 95% through deep linking (Flutter + go_router).
- Managed end-to-end development and client delivery across 5 projects.

Projects

ReviewMe: Review, Testimonial & Feedback Analytics (Full-Stack •

NLP)[\[https://github.com/virajjiwane/reviewme-be\]](https://github.com/virajjiwane/reviewme-be), [https://github.com/virajjiwane/reviewme-ui\]](https://github.com/virajjiwane/reviewme-ui)

- Built NLP sentiment + clustering engine using NLTK & Sentence Transformers.
- Added Celery/Redis pipelines for async, scalable ingestion.
- Built Angular dashboards with filters, charts, and export features.
- Deployed on AWS (EC2 + S3) with CI/CD automation.

Phii: AI-Powered Alarm App (Flutter • AI)[\[https://github.com/virajjiwane/phii\]](https://github.com/virajjiwane/phii)

- Built grouped alarm engine with Hive offline storage and device scheduling.
- Added Gemini-powered natural-language alarms + voice workflows.
- Implemented Material 3 UI, REST sync, and CI/CD for automated builds.

Smart Inline Inspection Tool | Patent Holder (Python • ML • IoT)[\[https://github.com/virajjiwane/sili\]](https://github.com/virajjiwane/sili)

- Developed ML workflow to predict wax deposition (Keras, sensors, Django).
- Hackathon winner; Patent granted in 2024.

Skills

Django • Python • Agile/Scrum • IoT • Flutter • PostgreSQL • JavaScript • PHP • Ionic • MongoDB • Docker • GIT • Spring Boot • Java • MySQL • AWS

Education

B.E. Computer Engineering, MIT Pune CGPA: 8.16 | 2020

Achievements

- **Patent Granted - SILI Tool (Patent Number: 522541), 2024**
- **SPOT Award - LenDenClub, 2022**
- **Winners - Smart India Hackathon Hardware Edition, 2019, MIT INDICON, 2019**
- **Runner-up - Smart India Hackathon Software Edition, 2018**
- **Paper published - ICDSMLA (Springer) Conference, 2020**

Certifications

- **IBM Applied AI Professional Certificate (V3) - Coursera, 2022**
- **Google Cloud Platform Fundamentals: Core Infrastructure - Coursera, 2020**
- **Introduction to Quantum Computing Course - The Coding School, 2021**

Extra Curricular

- **Leadership roles** at Make A Difference Foundation, CSI, Texephyr
- **Interests:** Game Dev, Piano, Weightlifting, Digital Art
